CLAIMS

1. Use of AZD2171 or a pharmaceutically acceptable salt thereof excluding an AZD2171 maleate salt, and one of:

a) 5-FU;

b) CPT-11; and

c) 5-FU and CPT-11

in the manufacture of a medicament for use in the production of an antiangiogenic and/or vascular permeability reducing effect in a warm-blooded animal such as a human.

2. Use of AZD2171 or a pharmaceutically acceptable salt thereof excluding an AZD2171 maleate salt, and one of:

a) 5-FU;

b) CPT-11; and

c) 5-FU and CPT-11

in the manufacture of a medicament for use in the production of an anti-cancer effect in a warm-blooded animal such as a human.

3. Use of AZD2171 or a pharmaceutically acceptable salt thereof excluding an AZD2171 maleate salt, and one of:

a) 5-FU;

b) CPT-11; and

c) 5-FU and CPT-11

in the manufacture of a medicament for use in the production of an anti-tumour effect in a warm-blooded animal such as a human.

4. Use of AZD2171 or a pharmaceutically acceptable salt thereof excluding an AZD2171 maleate salt, and 5-FU in the manufacture of a medicament for use in the production of an anti-cancer effect in a warm-blooded animal such as a human which is being treated with ionising radiation.

5. Use of AZD2171 or a pharmaceutically acceptable salt thereof excluding an AZD2171 maleate salt, and CPT-11 in the manufacture of a medicament for use in the production of an

anti-cancer effect in a warm-blooded animal such as a human which is being treated with ionising radiation.

6. Use of AZD2171 or a pharmaceutically acceptable salt thereof excluding an AZD2171 maleate salt, and 5-FU and CPT-11 in the manufacture of a medicament for use in the production of an anti-cancer effect in a warm-blooded animal such as a human which is being treated with ionising radiation.

7. Use according to any one of claims 2, 4, 5 and 6 wherein the cancer is colorectal cancer.

8. Use according to any one of claims 1-7 wherein AZD2171 is in a form of the free base.

9. A pharmaceutical composition comprising AZD2171 or a pharmaceutically acceptable salt thereof excluding an AZD2171 maleate salt, and 5-FU in association with a pharmaceutically acceptable excipient or carrier.

10. A pharmaceutical composition comprising AZD2171 or a pharmaceutically acceptable salt thereof excluding an AZD2171 maleate salt, and CPT-11 in association with a pharmaceutically acceptable excipient or carrier.

11. A pharmaceutical composition comprising AZD2171 or a pharmaceutically acceptable salt thereof, and 5-FU and CPT-11 in association with a pharmaceutically acceptable excipient or carrier.

12. A kit comprising AZD2171 or a pharmaceutically acceptable salt thereof, and 5-FU.

13. A kit comprising AZD2171 or a pharmaceutically acceptable salt thereof, and CPT-11.

14. A kit comprising AZD2171 or a pharmaceutically acceptable salt thereof, and 5-FU and CPT-11.

15. A method for the treatment of a cancer in a warm-blooded animal such as a human, which comprises administering to said animal an effective amount of AZD2171, or a pharmaceutically acceptable salt thereof excluding an AZD2171 maleate salt, before, after or simultaneously with an effective amount of one of:

a) 5-FU;

b) CPT-11; and

c) 5-FU and CPT-11.

16. A method for the treatment of a cancer in a warm-blooded animal such as a human, which comprises administering to said animal an effective amount of AZD2171, or a pharmaceutically acceptable salt thereof excluding an AZD2171 maleate salt, before, after or simultaneously with an effective amount of one of:

a) 5-FU;

b) CPT-11; and

c) 5-FU and CPT-11;

and before, after or simultaneously with an effective amount of ionising radiation.

17. A method according to claim 15 or claim 16 wherein AZD2171 is in a form of the free base.

18. A method for the treatment of a cancer in a warm-blooded animal such as a human, which comprises administering to said animal an effective amount of AZD2171 maleate salt, before, after or simultaneously with an effective amount of

5-FU and CPT-11.

19. Use of AZD2171 maleate salt and 5-FU and CPT-11 in the manufacture of a medicament for use in the production of an antiangiogenic and/or vascular permeability reducing effect in a warm-blooded animal such as a human.
